Index of key words

Contents of volume 1

Artificial intelligence in medicine

Vol. 5 No. 5

Articles

Guest editor's introduction

P. J. F. Lucas

The representation of medical reasoning models in
resolution-based theorem provers

P. J. F. Lucas

Symbolic decision support in medical care

J. Huang, J. Fox, C. Gordon and A. Jackson-Smale

Logic-based integrity constraints and the design of
dental prostheses

P. Hammond, J. C. Davenport and F. J. Fitzpatrick

A constraint logic programming framework for
constructing DNA restriction maps

R. H. C. Yap

Events

Vol. 5 No. 6

Articles

Multiple disorder diagnosis with adaptive competitive
networks

S. Cho and J. A. Reggia

Towards a statistically oriented decision support
system for the management of septicaemia

R. Dybowski, W. R. Gransden and I. Phillips

Neural network based classification of single-trial EEG
data

N. Masic and G. Pfurtscheller

Connectionist expert systems as medical decision aid

J. M. Barreto and F. M. de Azevedo

Book review

Deep models for medical knowledge engineering

N. Paul

Author index to volume 5

Subject index to volume 5

Events

Artificial intelligence review

Vol. 7 No. 5

Special issue on connectionism

The modulation of learning state in a biological
associative memory: an in vitro, in vivo, and in
computo study of object recognition in mammalian
olfactory cortex

James M. Bower

Dynamic rate adaptation

Garrison W. Cottrell, Mai Nguyen and

Fu-Sheng Tsung

Neurocomputing hardware: present and future

Dan Hammerstrom and Steve Rehfuss

Structured connectionist models and language learning

Jerome A. Feldman

Adaptive generalisation

Noel E. Sharkey and Amanda J. C. Sharkey

Connectionism, cognitive maps and the development
of objectivity

Ronald L. Chrisley

Connectionism and the mind-body problem: exposing
the distinction between mind and cognition

Tim van Gelder

Computational linguistics

Vol. 19 No. 3

Articles

Evaluating message understanding systems: an analysis of the third message understanding conference (MUC-3)

Nancy Chinchor, Lynette Hirschman and David D. Lewis

A computational theory of goal-directed style in syntax

Chrysanne DiMarco and Graeme Hirst

Empirical studies on the disambiguation of cue phrases

Julia Hirschberg and Diane Litman

Co-occurrence patterns among collocations: a tool for corpus-based lexical knowledge acquisition

Douglas Biber

Books received

Decision support systems

Vol. 10 No. 4

Articles

A hybrid AI/OR decision support tool for backbone communications network design

A. Dutta and S. Mitra

A decision support system for stochastic cost-volume-profit analysis

R. Ravichandran

An approach for an integrated DSS for strategic planning

J. Moormann and M. Lochte-Holtgreven

Call for papers

Author index

Subject index

Vol. 11 No. 1

Articles

Assessing the quality of expert judgment: Issues and analysis

F. Bolger and G. Wright

A knowledge-based operation support system for network traffic management

C.-Y. Chang and C.-G. Chung

A weighted fuzzy reasoning algorithm for medical diagnosis

S.-M. Chen

SDP: A strategic DSS

R. E. Hornby, P. A. Golder and J. Williams

Visualization of multivariate processes using principal component analysis and nonlinear inverse modelling

P. A. Jokinen

Heuristic perturbation of optimization results in a DSS for instructor scheduling

A. K. Mukherjee

Applying the service level criterion in a location-allocation problem

C. P. Pappis and N. I. Karacapilidis

Designing layered functionality within group decision support systems

B. Vickers

Vol. 11 No. 2

Special issue on logic modeling

Editor's introduction

H. K. Bhargava and S. O. Kimbrough

EVID: A system for interactive defeasible reasoning

R. L. Causey

Defeasible reasoning in law

S. K. Dewitz, Y. Ryu and R. M. Lee

Ordered logic: Defeasible reasoning for multiple agents

P. Geerts, D. Vermeir and D. Nute

Bayesian logic

K. A. Andersen and J. N. Hooker

A relational algebra for propositional logic

R. W. Blanning

Text editing and beyond: A study in logic modeling

M. Bieber and T. Isakowitz

On the logic of generalized hypertext

M. P. Bieber and S. O. Kimbrough

Data and knowledge engineering**Vol. 11 No. 2****Articles**

Lossless join property in fuzzy relational databases

B. Bhuniya and P. Niyogi

Access cost estimation for physical database design

P. Ciaccia and D. Maio

A graph based cluster approach for vertical partitioning in database design

X. Lin, M. Orłowska and Y. Zhang

GRAQUA: A graphical query language for entity-relationship or relational databases

G. H. Sockut, L. M. Burns, A. Malhotra and

K.-Y. Whang

Events**Vol. 11 No. 3****Articles**

On the selection of secondary indices in relational databases

S. Choenni, H. M. Blanken and T. Chang

Cardinality constraints in semantic data models

S. W. Liddle, D. W. Embley and S. N. Woodfield

Design and implementation of a database inference controller

B. Thuraisingham, W. Ford, M. Collins and

J. O'Keeffe

Refining imprecise data by integrity constraints

F. S. C. Tseng, A. L. P. Chen and W.-P. Yang

Author index to volume 11**Subject index to volume 11****Events**

Revised version of the master author index to volumes 1-10

Expert systems for information management**Vol. 5 No. 3****Articles**

Induction of disjunctions for industrial safety

John J. Cierniakoski

A knowledge directed method of automatic Chinese word segmentation

Tang Zhenmin, Jin Cong and Jingyu Yang

Modelling expertise in corporate settlement decisions: exploring the blackboard approach

Wullianallur Raghupathi, Raja K. Iyer and

Mark E. Eakin

Human-computer interaction**Vol. 8 No. 3****Articles**

Animated demonstrations for learning procedural computer-based tasks

Susan Palminter and Jay Elkerton

Who controls the technology in group support systems? Determinants and consequences

A. Pouliezos

Object oriented methodologies in decision and information technologies

Andrew P. Sage

Forecasting and trading strategy for the foreign exchange market

A. M. Rawani, D. K. Mohapatra, S. Srinivasan, P. K. J. Mohapatra, M. S. Mehta and G. P. Rao

Decision support using traditional simulation and visual interactive simulation

Patrick Y. K. Chau

Conflict analysis methodology for modelling coalitions in multilateral negotiations

Keith W. Hipel and Darren B. Meister

Has artificial intelligence delivered on Wall Street?

Jim Hutchinson

Advanced stochastic equilibrium programming in the UK National Health Service market

*N. L. Ramchandani and S. C. Lee***Vol. 19 No. 3****Articles**

Constraint logic programming and its application to fleet scheduling

N. Christodoulou, M. Wallace and V. Kuchenhoff

Constrained selective communication in real-time information systems

Wei-Pang Wang and Peter K. Willett

Associates systems for decision support

Andrew P. Sage

Decision aid for discrete alternative multiple criteria problems: A visual interactive approach

*Carlos Henggeler Antunes and João Clímaco***Vol. 19 No. 2****Articles**

Remote sensing technology for Bangladesh

*Harold E. Maurer, Herbert Blodget, Charles Vermillion, A. M. Choudhury and Md Obaidul Quader***International journal of computer vision****Vol. 11 No. 3****Articles**

Image matching using the windowed Fourier phase

John (Juyang) Weng

Trackability as a cue for potential obstacle identification and 3-D description

Harpreet S. Sawhney and Allen R. Hanson

3-D interpretation of optical flow by renormalization

Kenichi Kanatani

Detecting salient blob-like image structures and their scales with a scale-space primal sketch: a method for focus-of-attention

*Tony Lindeberg***Vol. 12 No. 1****Articles**

Computing occluding and transparent motions

Michal Irani, Benny Rousso and Shmuel Peleg

Toward color image segmentation in analog VLSI: algorithm and hardware

Frank Perez and Christof Koch

Performance of optical flow techniques

J. L. Barron, D. J. Fleet and S. S. Beauchemin

Smoothing and matching of 3-D space curves

André Guézic and Nicholas Ayache

International journal of man-machine studies

Vol. 39 No. 4

Articles

Plan recognition strategies for language understanding

S. Carberry and W. A. Pope

Strategy choice and change in programming

O. Wu and J. R. Anderson

Visualization ability as a predictor of user learning success

M. K. Stein, L. Olfman, R. P. Bostrom and S. A. Davis

Coping with complex environments: the effects of providing overviews and a transparent interface on learning with a computer stimulation

T. de Jong, R. de Hoog and F. de Vries

Types of expertise: an invariant of problem solving

P. E. Johnson, I. A. Zulkernan and D. Tukey

Speech versus mouse commands for word processing: an empirical evaluation

L. R. Karl, M. Petey and B. Shneiderman

Towards a taxonomy of multi-agent systems

S. D. Bird

Vol. 39 No. 5

Articles

Iconic reference: evolving perspectives and an organizing framework

M. E. Familant and M. C. Detweiler

The minimal manual: is less really more?

A. W. Lazonder and H. van der Meij

The semiotic engineering of user interface languages

C. S. de Souza

Impact of screen density on clinical nurses' computer task performance and subjective screen satisfaction

N. Stagers

Characteristics of the mental representations of novice and expert programmers: an empirical study

S. Wiedenbeck and V. Fix

Shared workspaces: how do they work and when are they useful?

S. Whittaker, E. Geelhoed and E. Robinson

On the use of the Dempster Shafer model in information indexing and retrieval applications

S. Shockey and R. A. Hummel

Vol. 39 No. 6

Articles

Document annotation: to write, type or speak?

P. Tucker and D. M. Jones

An advice-giving interface based on plan-recognition and user-knowledge assessment

M. C. Desmarais, L. Giroux and S. Larochelle

Planning for the support of computer users

G. Kelleher

An agent-theoretic approach to computer participation in dialogue

A. E. Blandford

User identification via keystroke characteristics of typed names using neural networks

M. Brown and S. J. Rogers

Monitoring behavior in manual and automated scheduling systems

Y. Liu, R. Fuld and C. D. Wickens

Structure front associative learning

J. H. Andreae, S. W. Ryan, M. L. Tomlinson and P. M. Andreae

European Association for Cognitive Ergonomics

Journal of experimental & theoretical artificial intelligence

Vol. 5 No. 4

Articles

On why constructivism does not yield relativism

M. H. Bickhard

Representational content in humans and machines

M. H. Bickhard

Graph decompositions and tree automata in reasoning with uncertainty

S. Arnborg

Modelling cyclicity and generalized cost-based abduction using linear constraint satisfaction

E. Santos Jr

Announcements

Journal of logic and computation**Vol. 3 No. 4****Articles**

Naming and identity in epistemic logics Part I: The propositional case

A. J. Grove and J. Y. Halpern

Defeasible logic is stable
