## The Knowledge Engineering Review: Publication Policy

The Knowledge Engineering Review has been established to provide a general source of information and analysis in all areas relevant to research and development in knowledge based systems and applied artificial intelligence. The editors wish to encourage careful preparation of original papers analysing developments in the field. In particular we wish to see tutorial and survey articles, and commentary, criticism and debate. Primary research papers on specialised technical topics are unlikely to be appropriate but research papers on broad topics, such as development methodology or general evaluations of tools and techniques, are of interest. Descriptions of specific projects or particular computer systems will be considered if their presentation draws out general issues in the design, implementation or impact of knowledge based systems.

## Subscriptions

THE KNOWLEDGE ENGINEERING REVIEW (ISSN 0269-8889) is published quarterly in March, June, September and December. Four parts form a volume. Orders, which must be accompanied by payment, should be sent to any bookseller or subscription agent, or direct to Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU. Subscriptions in the USA or Canada should be sent to Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133. The subscription price (which includes delivery by air where appropriate plus electronic access to institutional subscribers, but excludes VAT) of volume 27, 2012 is £400 (US\$715 in the USA and Canada) for institutions; £110 (US\$190 in the USA and Canada) for individuals, including postage; separate parts cost £100 (US\$170 in the USA and Canada) plus postage. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number.

Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. POSTMASTER: send address changes in USA and Canada to The Knowledge Engineering Review, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.
